

***Tangshan Runfeng Composite Materials Co., Ltd.***

# About Runfeng

---

The headquarters of Runfeng Group is located in Tangshan City, Bohai Bay, China. It was founded in 2004 by Chairman Mr. Feng with several other industry experts. At that time, Runfeng was still a little-known satellite factory in China. Mr. Feng relied on his knowledge of materials and a strong desire to improve the reputation of Chinese manufacturing, strictly focusing on product quality, and constantly leading the team to develop new products.

With clients' trusts and the high standards of Runfeng people for many years, Runfeng now has four major product lines and developed into group company with three main production bases. Except for domestic market in China, products are exported to USA, Canada, UK, Belgium, Poland, Qatar, Japan, South Korea, Australia, Vietnam, and Indonesia, etc..

# Application

---

- 1.Refrigerated Truck
- 2.Dry Box truck
- 3.Cabin for Ship and Yacht
- 4.RV, Caravan

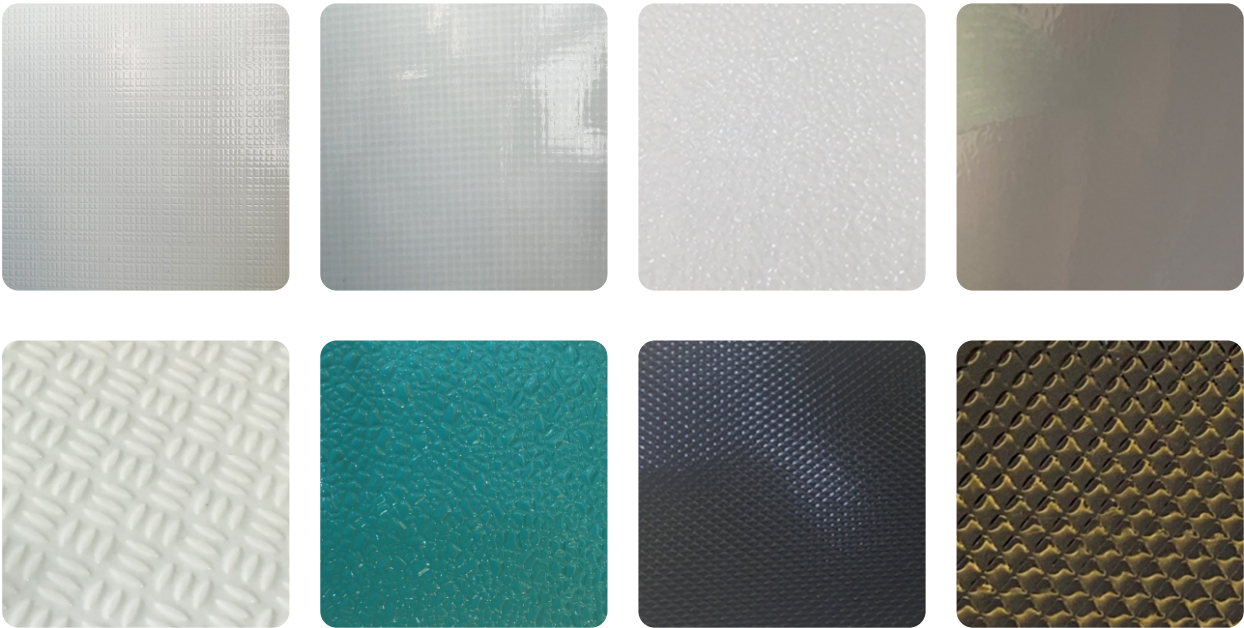

- 5.Modular Buildings
- 6.Interior Wall for Buildings
- 7.Hatchery Incubator
- 8.Swimming Pool

# Product

---

- 1.Normal Glossy FRP(Fiberglass/GRP/GFRP) Sheet
- 2.Super Glossy FRP(Fiberglass/GRP/GFRP) Sheet
- 3.Woven Glossy FRP(Fiberglass/GRP/GFRP) Sheet
- 4.Embossed FRP Sheet
- 5.Sandwich Panels  
(XPS, EPS, PU, Plywood, PET, PP Honeycomb, etc.)

# Product Advantages

---

## **1. Sheets Uneasily Cracked When Processing**

The glass fiber content of the sheet is more than 28%, reducing your sheet loss caused by processing;

## **2. Uniform Color & Smooth Surface**

The resin, color and additives fully mixed before production. Ensure the quality stable of the sheets you buy.

## **3. Multiple Choices**

Thickness, width, length, color, surface and even strength can be customized. Help you gain more market share.

# Why us?

---

## · **Quality Assurance**

All raw materials for sheets are from well-known suppliers or suppliers cooperating with Runfeng for years. Help you avoid production rework due to quality problems and lower your production cost;

## · **Shorter Production Cycle**

In order to ensure sufficient product power and supply power, the company has introduced advanced automated production lines to ensure product quality and production efficiency, to shorten your raw material procurement cycle;

## · **Technical Support**

We have a R&D team with two decades years of industry experience. We can provide you with multi-faceted technical support;

## · **Worry-free After-sales**

The company has three production bases and has rich experience in cooperating with many famous companies, so that you don't have to worry about after-sales;

## · **Logistics Services**

Runfeng and its cooperating forwarders have rich experience in export and logistics cooperation. Even if you are importing for the first time, we can ensure that the products you buy will safely enter your warehouse at a proper cost in time;

## · **Purchase Assistance**

In addition to being a manufacturing company, Runfeng is also a trading company. If you need to purchase a variety of commodities in China, we can provide you with one-stop service.

# History of Runfeng

- 2004 Company founded: the first FRP sheet automatic production line introduced;
- 2005 ISO9001: 2000 passed. One of the authors of 《Glass fiber reinforced polyester corrugated sheet》;
- 2007 Kunshan branch company founded;
- 2008 Kaiping branch company founded: Improved FRP continuous molding production line;
- 2009 Diffused light FRP skylight sheet (SKD sheet) developed: perfectly avoid light spot and glare generating;
- 2010 The first ultra-wide sheet production line put into use: Production capacity reached 3,000,000 square meters per year;
- 2013 Tangshan headquarters founded: Covering an area of 54000m<sup>2</sup> with 4 automatic production lines, 60,000,000 USD invested;
- 2014 Special resin for SKD sheet developed. Kunshan Runfeng production base under construction;
- 2015 Compiling 《Glass fiber reinforced polyester corrugated sheet》: National standard GB/T 14206-2015;
- 2016 ISO 9001: 2008 passed;
- 2019 The 5th factory established and put into use.
